Subject: RL Participation

Susan,

I'm sending you this message to inform you (as chair of the NRTC) that RL will be scaling back it's participation in NRTC meetings. Due to budgetary constraints and other issues, RL and it's contractors (including the council's administrative secretary) will only be attending meetings on a quarterly basis. We will that this level of participation will be adequate to address natural resource damage assessment issues involving the Hanford Site. We will continue to participate in NRTC work group meeting on an as-needed basis.

We plan to attend the February, 2000 meeting and will provide secretarial support for that meeting. Quarterly participation will start with this meeting. Thank you.

Jamie
